

Key points of the message from:

Prof. Dr. Refat Alfaouri

Director General

Arab Administrative Development Organization
(ARADO – league of Arab states)

To:

The World Communication Forum in Davos, Switzerland

Panel: **Government and communications - development and regulations**

Reinventing the government communication

(Open participative government)

Innovative information and communication technologies through web-based internet applications and information technologies in order to:

1. To provide citizens and businesses with more convenient access to government information and services.
2. Improve the quality of the services.
3. Provide greater opportunities to participate in democratic and processes.
4. Higher quality cost effective government services.
5. Brings citizens and businesses closer to their governments.
6. Increasing the government transparency.
7. Facilitating general compliance.
8. Citizen access to personal benefits:
 - Application for public assistance.
 - Workers compensation.
9. Procurement including bidding, purchasing and payment.
10. Government-to-government information and service.
